UNLEASH YOUR FULL POTENTIAL!

360° ATLÉTICO DE MADRID HIGH PERFORMANCE SUMMER CAMP

100% ATLÉTICO EXPERIENCE

LIVE, TRAIN, AND PLAY LIKE ATLÉTICO

The Atlético de Madrid Academy is a sports institution with a long tradition in the development of young football players. Our goal is to train our players both athletically and personally.

Therefore, we believe and work to promote values such as solidarity, camaraderie, and equality through sports practice, as well as the improvement of social skills and communication.

WORK HARD TO ACHIEVE YOUR GOAL

Our campus will help participants maximize their athletic abilities in a dynamic environment. The objective of this summer camp is to educate and train young individuals in values through football. It's a comprehensive education of the player in a healthy environment, built on respect and enjoyment, with the collaboration and support of the Atlético de Madrid Academy, which organizes Technical and Training Schools during the season. Guided by our technical team, participants will acquire the knowledge and skills necessary to continue progressing every day. The programs are tailored to each age group and include recreational and educational activities in dynamic and participatory settings.

SPORTS MANAGEMENT AND TECHNICAL STAFF

The Sports Management and coaches of the Atlético de Madrid Academy, with their methodology, ensure an enriching experience at the Palencia Campus, both personally and athletically. Our experienced coaches will enhance your individual and collective abilities. Armed with the necessary knowledge and qualifications, they will bring out the best in you, helping you achieve optimal performance according to your age group and needs. In a safe and protected environment, you will have fun and make the most of the experience.

At the Campus, we focus on individual skills, group strategies, as well as the specific technique and tactics of football. Game systems are designed for your best progression. The Sports Management and the entire technical staff will share their professional experiences and introduce players to specialized football, along with the high values that Palencia Football Academy and the Atlético de Madrid Academy uphold, including effort, teamwork, and solidarity.

The campus will be led by the Technical Director of Palencia Football Academy, Jorge Gonzalo, who will oversee the organizational and logistical aspects, as well as coordinate all organizational and non-sporting aspects of the event to ensure an outstanding experience.

In football, a crucial figure for a team is the goalkeeper. Our campus offers specific training for players who choose this position. We have coaches dedicated to providing training to students requiring specific instruction in this position, thus promoting, from the grassroots, one of the values emphasized by both Palencia Football Academy and the Atlético de Madrid Academy - equality of opportunities.
